

WEBINAR

Drying Solutions for efficient production

THERMAL SYSTEMS

December 10, 2020 at 9.00 a.m. and 3.00 p.m.

An optimal drying process is important in electronics manufacturing. Depending on the chemicals used in their materials, electronic products have different requirements as regards reliable hardening during manufacture. The RDS drying systems are configured individually according to the customer's requirements.

In this webinar we will show you the different basic physical principles of heat transfer used here to make your drying processes as efficient as possible.

December 10, 2020 at 9:00 a.m. CET (for Asia, Europe, ROW)
December 10, 2020 at 3:00 p.m. CET (for Americas, Europe)

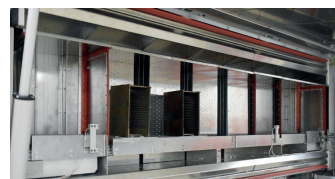

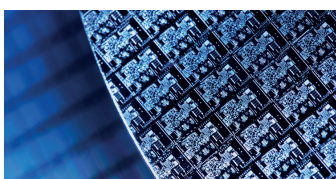

Registration:
sales@rehm-group.com

Duration of the webinar: 30 min

Main topics of the webinar

- Safe Process, controlled Drying
- Higher efficiency with Drying solutions
- Different Drying Processes
 - Convection
 - IR
 - UV
- Horizontal and vertical solutions
- Line integration of drying processes

Subject to substantive adjustments

TECHNOLOGY ACADEMY
