

WEBINAR

Vapor Phase Soldering

THERMAL SYSTEMS

July 29, 2021 at 9.00 a.m. and 4.00 p.m.

Do you process large and heavy boards for which condensation soldering is out of the question? Or do you want a system that you can reliably carry out vacuum processes with at any time? Then choose a **Condenso series system** that can be customised to your manufacturing environment!

The Condenso series system versions can be integrated into a wide range of manufacturing environments. Whether it's a batch operation, inline connection or continuous soldering, Rehm offers the highest degree of process reliability for all areas.

July 29, 2021 at 9:00 a.m. CEST (for Asia, Europe, ROW)
July 29, 2021 at 4:00 p.m. CEST (for Americas, Europe)

Registration:
sales@rehm-group.com

Duration of the webinar: 60 min

Main topics of the webinar

- Vapor phase vs. Convection
- Why Vapor phase?
- Where are the Applications?
- Rehm vapor phase technology
- Advantages in working with Rehm products
- From batch to max. output. Always the right solution.
