WEBINAR
ViCON – Ready for smart production

October 29, 2020 at 9.00 a.m and 3.00 p.m.

Digitalized production processes and communication between machines facilitate modern production and at the same time create a very high level of transparency: With the systems from Rehm Thermal Systems, the data relevant for a safe and stable process can be communicated from machine to machine and across all production areas.

Line integration, efficiency, availability and networking are keywords in the industry today. Software-supported production enables the user to manage complex and variable processes, to keep the overview and to maintain consistent conditions.

Learn more about ViCON in this webinar!

October 29, 2020 at 9:00 a.m. CEST (for Asia, Europe, ROW)
October 29, 2020 at 3:00 p.m. CEST (for Americas, Europe)

Registration:
sales@rehm-group.com

Duration of the webinar: 30 min

Main topics of the webinar

- User roles and user level

- Program and product parameters

- Protocol

- Recorder for analysis tools

Subject to substantive adjustments.
